Welcome to

7THGRADE

Rye Junior High
2019-2020

Be on the lookout for...

- ☑ Weekly newsletters
 - ☑ After school help
 - ☑ Online team calendar for homework & events
 - ☑ Increased literacy in content areas
 - ☑ Learning Without Boundaries
- Students will have opportunities to co-create aspects of their learning environment (*place*) and experience (*choice*).
- ☑ Project based initiatives

Humanities

Mrs. Miller and Mrs. Gilbert will be continuing to foster voice and choice in the classroom through personalized learning. Students will explore literacy skills through a historical lens, while taking ownership of their learning.

In 7th grade Humanities, we will be focusing on a "Sense of Growth." We will examine growth and change within our school, community, nation, and selves. We are looking forward to helping students develop 21st century learning skills and helping them to understand who they are as lifelong learners.

STEAM

Mr. Bissonnette and Mrs. Friberg are teaming up during the second and third trimester to maximize the alignment of our content standards by incorporating interdisciplinary projects.

Dr. Ellwood will be working with the 7th grade team during the 2nd trimester while Mrs. Bayse will join us during the 3rd trimester. We will use their expertise to create authentic experiences for student learning in STEAM.

On September 27, 2019 parents are invited along with their 7th grade child to the Browne Center at UNH to participate in a day long program: *Team Development and Community Building*. The program consists of a customized sequence of experiential activities that foster individual and team growth. In an environment that is fun, safe, and respectful, this program also provides opportunities for participants to make positive choices, gain self-confidence, and learn skills that are critical to their development.
